

Shower Curtains and Rails

We are pleased to offer this simple, functional, yet effective range of accessories for your bath/shower arrangements.

IFY.40 1675x760mm White 'L' Shaped Angled Shower Rail

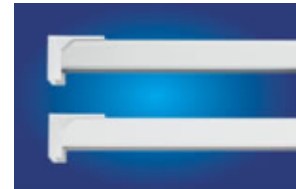

IFY.41 2400mm White Straight Shower Rail

A lightweight but strong aluminium rail system. Pre-formed for perfect joint free bends with rigid box section to ensure maximum support.

The system features a smooth running internal glider and hook system. All rails are supplied with 12 hooks and gliders for one shower curtain. Additional hooks and gliders can be purchased if required.

All fixings are included and no special tools are required.

It is recommended that the ceiling supports supplied are used when the rail is installed. Additional ceiling supports are available.

IFY.30 1800x1800mm White Shower Curtain

The high performance plain shower curtains are expertly manufactured using an easy care fabric especially created for use in the bathroom. They are also treated to ensure maximum water repellence.

The reinforced headerband adds strength and the weighted hem ensures that the curtain does not cling to the user.

Ready to hang with 12 eyelets, these curtains are suitable for use in all showers - even power showers.

Machine washable. Full washing instructions are provided on the curtain care label.

IFY.20 177x1260mm Silver Mini-Bath Screen

A narrow mini-shower screen to prevent splashes from the shower not caught by a shower curtain.

Polished silver aluminium finish to compliment chrome bathroom fittings.

Complete all with fixings and seals required.

IFY.31 White Plastic Shower Curtain Rings.

For use with round curtain rails, not required for rails shown above
