IFY6.21

Available
in 2 types:
surface mounted
and root fixed.

Sheffield Bike Stand

This tubular cycle stand allows the bike's frame to be secured by the users own lock. This practical and durable design is recommended by national cycling associations.

Surface counter sunk to 250mm depth, this product has spiggots welded to the buried section in order to provide additional security once concreted in place.

- ✓ 48.2mm x 3mm mild steel tube hot dip galvanised to BS EN ISO 1461:1999.
- ✓ 800mm (height above ground) x 600mm (width).

IFY8.02B = Bolt on

IFY8.02C = Concrete in

Semi-vertical Cycle Stands

A great space saving cycle rack with high and low positions to maximise cycle storage.

Available as a standard version with 305mm centres, however as manufacturers we are able to offer this product as a variety of centres. Contact a member of our sales team for more information.

Racks shown are for standard sizes, if you require smaller or bigger racks we are always willing to manufacture these and other bespoke designs.

Cycles are loaded semi-vertically in to trough supports set at alternate high and low position. Comes standard as a surface mounted rack complete with additional trough support bars for extra strength.

A locking loop is provided as standard to enable the cyclist to secure the bike using their own lock for additional security.

- ✓ Available as various space stands, minimum 4 spaces.
- ✓ Mild steel hot dip galvanised to BS EN ISO 1461:1999.
- ✓ 1200mm depth x 1800mm height.
- ✓ Made to order and delivered direct to site by the manufacturer.

IFY8.33 – made to order to specific size required

Indoor Laundry Products

4 Line Retractable Clothes Airer 40m

- ✔ Space saving indoor drying made easy.
- ✔ Ideal for people with limited drying space.
- ✔ 4 lines of hanging space.

IFY6.01

Folding Clothes Airer

Putting wet clothes directly onto radiators can cause condensation and spoil your decor, use this airer to hold wet washing away from wall giving much needed extra drying space. Just the thing for towels in the bathroom or kitchen.

- ✔ Compact and easy to use.
- ✔ Two screws to fit securely to wall.
- ✔ 70cm in length.
- ✔ 620mm between screws.
- ✔ 3.8m hanging space.

IFY6.02

Over Bath Airer

Multi position indoor airer ideal for use in bath easily fitted over the bath, and is compact when packed away.

- ✔ Ideally suited to over bath drying.
- ✔ Multi- position compact indoor dryer.

IFY6.03

Chrome Retractable Clothes Line

2290mm. Retractable clothes line which can be screw-tightened to a desired length. Chrome finish.

IFY6.04

Outdoor Laundry Products

4 arm Rotary Clothes Dryer

Retractable Washing Line (12m)

- ✓ Easy to use retractable outdoor washing line.
- ✓ Stows neatly away when not in use.
- ✓ Fully retractable.
- ✓ UV stable protective casing.
- ✓ 2.4m high.

IFY6.07

Wildlife Habitats

Under the Code for Sustainable Homes credits can be available for enhancing the ecological value of a site. Each site should be evaluated by a suitably qualified ecologist who will recommend products be installed within a development to positively enhance the ecology of the site. The following are examples of such products that could be required.

Bird Box 26mm

Ref:NBCP-26

- ✔ Constructed from thick Canadian cedar from managed forests for excellent insulation and strength.
- ✔ Deeper interior dimensions offer greater appeal to nesting birds.
- ✔ Hinged door for inspection and cleaning.
- ✔ Hand assembled in the UK for higher quality finish.

- ✔ No painting, varnishing or preservatives required - ever. Ages naturally and attractively and adds style to any garden setting.

H:370mm, W:156mm, D:175mm - 19mm-25mm thickness Canadian cedar - Approx Weight 1.5kg

26mm entrance hole especially for blue tits. Occasionally coal and marsh tits and wrens.

Natural Timber Bat Box

This natural and attractive Bat Box will fit into any garden, woodland or house wall site.

It is made from high quality durable timber providing longevity and excellent insulation.

Bats need new habitats as many of their traditional roosts have been lost over recent years. The narrow entrance slot and strong timber help to discourage predators.

- ✔ New buildings often require the provision of bat boxes / roosts.

H:380mm, W:180mm, D:100mm
Approx Weight 1.2kg

Full FSC timber construction.

Ref:BBCH-00

Bug Box 2000

This new small double chambered insect habitat (top varying size canes - bottom solid bored timber) is ideal for hanging in a sheltered garden or house wall or orchard. This is a general insect habitat. The holes may be used by solitary bees such as or Leafcutter Bees, which are non aggressive and excellent for pollinating in the garden, helping to increase fruit yields. Site using back hanger or central hanging chain if preferred in a sheltered spot, preferably to catch the morning sun.

- ✔ The durable roof and solid timber construction give excellent insulations for over wintering Ladybirds and Lacewings.

H:135mm, W:110mm, D:210mm Approx Weight 1.5kg

Full FSC timber construction.

Ref:BBOX-00

SwiftBrick

As modern building practices have greatly improved the quality of new homes in the UK, some have actually suffered from the advances in building regulation.

Bird species such as swifts have occupied the cracks and crevices in our buildings for thousands of years, but the improved standard and style of modern construction has put their survival in our towns and cities at risk.

These popular birds come to the UK for three months during the summer to raise their young and can be seen on warm evenings giving spectacular displays. They eat large quantities of insect pests and spiders. They prefer nesting in small groups but the population has been dwindling for many years as suitable nest sites have become scarcer.

The Manthorpe Swift Brick has been developed in conjunction with major house builders and conservation experts to provide a safe, spacious and habitable area to allow swifts to nest within the well built construction of modern houses.

Available in the following colour variations:

Takes the place of a single brick.

The coloured face blends in to the surrounding bricks.

Built in cavity tray detail protects against water ingress.

Easy to install
Can be fitted quickly during bricklaying.

29 x 65mm Opening
Leading into a recessed entry tunnel.

413cm² of floor area. Gives the maximum habitable living space within the wall construction

Integral nest concave
Provides ideal starting point for nest building.

Rainwater Storage
